

Polycom® KIRK® Butterfly Handset Series Five Vibrant Colors - Same Great Features

Polycom offers a colorful, trendy, and lightweight DECT handset designed especially for office environments that fulfills your basic wireless telephony needs.

The Polycom® KIRK® Butterfly Handset Series combines usability and stylish design with high quality voice. The KIRK Butterfly Handset Series is designed especially for office environments that need the most important features and functionalities within basic voice and messaging.

With the KIRK Butterfly Handset Series you will experience an exceptional voice quality and a best-in-class grip due to the sleek and slender shape of the handset.

The handset is available in a range of fashionable colors - white, black, green, red, and blue - but all with the same great features. Use the Butterfly color palette to underline your business identity or to distinguish employee groups.

The unique and contemporary design combined with the superb voice quality and usability make the KIRK Butterfly Handset stand out in any office.

Business Benefits

The KIRK Butterfly Handset Series has an intuitive and easy-to-navigate menu structure and a 4-way navigation key with user-friendly icons. This ensures that everybody fast and easy can operate the handset. This makes it easy to integrate the KIRK Butterfly Handset into your daily workflow.

Your employees will benefit from being able to move around the company freely while constantly being accessible. This will shorten response time and streamline the daily workflow as information can be delivered to the right person exactly where and when it is needed. With the smartly combined desk stand and belt clip it is easy to carry your handset around while keeping your hands free for working.

The KIRK Butterfly Handset Series is supported on Microsoft® Lync™ Server 2010. Use your KIRK Butterfly Handset to connect to Microsoft UC environments in a KIRK Wireless Server 6000 Lync set-up.

Polycom® KIRK® Handset Portfolio

The Polycom KIRK Handset portfolio consists of a range of wireless handsets that provide specialized and valuable functionalities to users in many different vertical markets.

The Polycom KIRK Handset portfolio has wireless handsets for your every need – from the basic handset to the ruggedized, full-featured, and application-enabled handset.
