

Polycom® KIRK® 50-Handset Series

Stylish and Feature-rich Handset for Administrative Personnel

The Polycom® KIRK® 50-Handset Series is specially designed to increase mobility and productivity for mobile workers in administrative working environments.

The KIRK 5020 and KIRK 5040 Handsets are elegant, yet robust handsets with a long list of features. The large color display and the intuitive menu structure make the KIRK 50-Handset Series a valuable tool and a preferred choice for mobile workers in administrative working environments across the range of vertical markets.

Business Benefits

Usability is key for any handset. Without it the handset fails to live up to its main purpose of being a valuable tool for the employee on the move. The KIRK 50-Handset Series is definitely an example of usability at its best. The large color display and the intuitive user-interface ensure that everybody fast and easily can operate the handset.

Enjoy the freedom and flexibility of working with either a traditional or a Bluetooth headset, which guarantee that your mobile workers really can experience the pleasure of being hands-free and mobile within the company.

With the KIRK 50-Handset Series your employees will not only benefit from being able to move around the company freely while constantly being accessible, they will also benefit from an increase in productivity and an optimization of the daily workflow as they will have easier and faster access to the information they need, and therefore can better perform their tasks.

Moreover, the KIRK 50-Handset Series is supported on Microsoft® Lync™ Server 2010. Use your KIRK 50- Handset Series handset to connect to Microsoft UC environments in a KIRK Wireless Server 6000 Lync set-up.

A Future-Proof Investment

The KIRK 50-Handset Series is highly durable. The robust and feature-rich handsets make the total cost of ownership competitive through the entire product life cycle. This ensures that the KIRK 50-Handset Series is a future-proof investment.

KIRK Wireless Handsets

The KIRK 50-Handset Series is part of the Polycom KIRK Wireless Handset portfolio, which includes a range of wireless handsets each with their own unique features and functionalities.

Benefits

- Supported on Microsoft® Lync™ Server 2010
- Specialized features for administrative working environments
- Large color screen and intuitive menu structure
- Combines elegance and robustness: the elegant and award winning design is combined with robustness which enables the handset to withstand drops to the floor etc.
- Increases on-site mobility as employees are reachable anywhere within the organization's premises
- Increases productivity and optimizes workflow as employees have better and faster access to the information they need, and can better perform their tasks
