

# Sangoma connect

Mobile Softphone for PBXact and FreePBX

## Intuitive and Easy to Deploy

Allow staff to work remotely using the Sangoma Connect Mobile app for iOS and Android devices. Employees can enjoy voice, SMS\*, and multi-party video collaboration\*\*, using their business extension, while keeping their personal device information private.

The intuitive onboarding process sends an auto-generated email to each user upon activation from the PBX with simple instructions for them to download the app with instant log-in. It's as simple as that!

## Secured Communications

Sangoma Connect users are protected by TLS/SRTP encryption which means their phone calls are kept private while on cellular or WiFi connections, and your business is secured from any unauthorized connections.

## Features Included

### Audio & Video Calls using your Business Extension

Make and receive calls using your mobile device, while protecting your personal phone number, using mobile data or WiFi connection.

### SMS

Use your existing business extension to SMS clients for an enriched customer experience.

### Do-Not-Disturb (DND)

Silence all inbound business calls when you don't want to be disturbed using the scheduling feature for automatic behavior.

### Voicemail

Receive business voicemail directly to the app, allowing users to quickly listen to calls they have missed.

### QuickDial with BLF

Create a list of favorite contacts for easy access with BLFs (Busy Lamp Field) that also show the current status of your colleagues.

### Powerful Call Control

Users can blind & Warm transfer calls, record and have 3-way conversations.

\*SMS functionality supported when using SIPStation SIP trunking service.

\*\*Video collaboration enabled by included Sangoma Meet multi-party video integration.
