

ADDCOM Dialler

The ADDCOM Dialler has a refined and elegant look to suit a call centre, general work place or home office and eliminates the need to purchase additional telephones or amplifiers.

ADDCOM headsets may be connected directly to the Dialler and there is an additional extension jack allowing for an extra telephone or modem.

Features

- Soft touch dialling pad
- Headset socket
- Transmit volume control
- Receive volume control
- Mute switch
- In-use LED indicator
- Pulse or tone dialling
- Last number redial button
- Extension jack for another telephone or modem
- Variable flash setting
- Flash (recall) button
